## Island Hideaway Resort & Spa at Dhonakulhi, Maldives

We often receive letters from our customers, and our Holiday Consultant Lisa Groome was especially delighted to receive this one from Sue Macartney and her husband, praising their recent holiday to Island Hideaway.

Hi Lisa,

*I've been meaning to send you an email since the return of our holiday. Once again ITC Classics came up trumps and recommended the perfect resort for our needs. Island Hideaway was amazing. From being whisked away upon arrival at Male onto our connecting flight and then met by our 'butler' and being escorted to the resort.*

*Excellent accommodation - although we were in the smallest villa, it had more than enough room for the two of us and was completely secluded. Very tasteful. We had our own private garden and beach. NB: we had a tour of the various other villas and they were absolutely breathtaking. Our favourites were the Jasmine Garden Villas. Mind you, if you are a complete spa addict, you would probably like the Spa Water villas - I can't believe they had a steam room and his/hers massage beds!*

*The bar had an excellent selection of smoothies and cocktails (as promised!). The food was delicious - we dined on fish.*

*The Spa was the best I've ever been to in the world. I had a massage and the girls were terrific. The treatment was not your typical hot stone treatment, have a relaxing drink and then off you go'. The treatment was a foot massage, followed by a steam bath, a shower and finished with 'chill-out' time.*

*In summary, if you need complete relaxation, privacy & a beautiful place to go. My husband is not really a fan of 'hot holiday' but he's coming around to the idea that if it's done in style, he was quite impressed by the snorkelling, flying fish, octopus and the view. Looking to come back to the Maldives, he would return to Island Hideaway.*
